Introduction

The Office of Student Financial Assistance (OSFA) is an office within the Maryland Higher Education Commission (MHEC) responsible for the administration of 23 State financial assistance programs. These programs are designed to improve access to higher education for needy students; encourage students to major in areas of great economic need to the State, such as teaching and nursing; and encourage Maryland's brightest students to attend college in the state. Maryland students use the assistance from these programs at community colleges, independent colleges and universities, private career schools, and the State's public four-year campuses. Programs are classified in one of five categories:

- ?? Need-based Aid Programs
- ?? Legislative Programs
- ?? Merit-based Programs
- ?? Career and Occupational Programs
- ?? Unique Population Programs

Many of our State grants and scholarships combine aspects of several of these categories in that they may require a specific grade point average, require a service obligation and have income limitations. However, programs are classified by the predominant awarding criteria and program goal. With few exceptions Maryland residency is required for all State financial assistance and students are required to attend a college in Maryland. The majority of State financial assistance programs are aimed at full-time undergraduate students, with only a small percentage of the funds going to part-time and graduate students. Descriptions of each financial assistance program by category can be found in Appendix I.

In addition to administering State financial assistance programs, OSFA has been charged with expanding its outreach activities to increase college awareness and access with particular emphasis on the State's lowest income population. OSFA, in collaboration with other organizations in the State, coordinates and conducts college awareness and outreach activities to ensure that students and parents are well informed of State financial assistance opportunities and that students have college preparation information. This is critical to ensuring that every Maryland citizen has access to higher education and can contribute to the further development of Maryland's economic health and vitality.

Summary of State Financial Assistance Programs and Awards for FY 2003

In fiscal year 2003, 45,645 financial aid awards were made totaling \$78.7 million. The average award was \$1,724. A breakdown of program expenditures, number of awards issued, and average award for each program can be found in Table 1 below. Program expenditures are sub-totaled by category.

**Table 1. State Financial Aid Program Expenditures
Number of Awards and Average Award: FY 2003**

Program	Dollars	Number of Awards	Average Award
Need-based Aid			
Guaranteed Access Grant	\$ 5,553,075	924	\$ 6,010
Educational Assistance Grant	32,167,807	19,904	1,616
Part-Time Grant	1,791,303	4,276	419
Graduate and Professional	201,127	204	986
Sub-Total	\$ 39,713,312	25,308	\$ 1,569

Source: Maryland Higher Education Commission Financial Aid Database

Note: Figures reflect actual awards made to students in FY 2003; figures may reflect some funds that were carried forward from prior year

Exhibits 1 and 2 provide the distribution of program funds by category and higher education segment. Just over half of the funds expended for State financial assistance in fiscal year 2003 were for need-based aid programs. Over two-thirds of program funding was awarded to students enrolled at a four-year public institution.

Exhibit 1. Distribution of State Financial Aid Funds by Category FY 2003

Exhibit 2. Distribution of State Financial Aid Funding by Higher Education Segment FY 2003

Exhibits 3 and 4 provide the distribution of program recipients by category and higher education segment. Fifty-five percent of program recipients received a needbased grant or scholarship. Twenty-four percent received a Legislative Scholarship and 16% a Career and Occupational Scholarship. Almost 60% of the recipients of State financial assistance attended four-year public institutions.

Exhibit 4. Distribution of State Financial Aid Program Recipients by Higher Education Segment FY 2003

Summary of College Awareness and Outreach Activities

Educating Maryland residents about State financial assistance programs and higher education opportunities is a core component of MHEC's efforts to promote access to postsecondary education. OSFA has made concerted efforts over the last year to enhance college awareness and outreach activities to reach this goal. Several outreach efforts have been employed using a variety of means including workshops and presentations, direct mail, publications, and webbased initiatives. These efforts are in collaboration with high schools, community groups, colleges and universities, faith based organizations, and the media.

Workshops and Presentations

OSFA participates in numerous college night programs and financial aid workshops. In fiscal year 2003, financial aid presentations and workshops increased significantly. (Exhibit 5) These were held in many different venues such as guidance counselor workshops, financial aid nights at high schools, college fairs, college open house programs, legislative workshops, and special programs. Over half of the workshops and presentations were financial aid nights held at high schools across the State (Exhibit 6). When scheduling outreach activities, emphasis is placed on schools in economically disadvantaged areas. To better serve this population of students, staff works in collaboration with community groups and faith-based organizations. OSFA has also begun working much more closely with community college financial aid offices to maintain and increase financial aid presentations and workshops to this student population.

Exhibit 5. OSFA Outreach Presentations FY 2001 to FY 2003

Exhibit 6. OSFA Outreach Activities By Category

Direct Mail

To better coordinate the college awareness and outreach efforts employed by MHEC, **College Preparation/State Financial Assistance Outreach Kits** were developed and distributed to all public and private high school guidance counselors, early intervention sites, legislators and other interested organizations in December 2002. The kit was designed as a tool to help individuals educate students about preparing for college and applying for State financial aid during student meetings, advisory meetings, PTA meetings, or college night sessions. The kit included one copy of the following materials.

Presentation Materials

-  Video - “You Can Afford College” to inform students of financial aid opportunities

- ✍ PowerPoint presentation – “Money for College!” (Updated versions will be available on MHEC’s website at www.mhec.state.md.us, and can be downloaded and used for student presentations)

Brochures/Guides on State Financial Aid Programs and College Preparation

- ✍ Cash For College
- ✍ College 411
- ✍ Getting Money
- ✍ An Academic Year: Preparing for College
- ✍ Student Guide to Higher Education and Financial Aid in Maryland

Application Information for State Financial Aid Programs

- ✍ A programs and contactpersons information sheet for the Office of Student Financial Assistance
- ✍ Applications and Counselor Instructions for HOPE and Guaranteed Access awards (applications are also available on MHEC’s website)

Based on outreach kit evaluation forms returned bythe counselors, the kit was very well received. We did find, however, that the video was not as useful as anticipated. For this reason, we will no longer provide updated videos each year. Updates of other materials will be provided annually.

Again this year, OSFA mailed to the home of each high school junior a brochure entitled “Cash for College”. This brochure informs students thatState financial aid opportunities may be available to them when they are ready to apply to college. The effectivenessof this initiative has been discussed internally and externally. It has been recommended that we no longer perform this mailing and focus on students in earlier grades. This is further discussed in this section under “Outreach Efforts 2003 and Beyond”.

As in past years, the*Student Guide to Higher Education and Financial Aid in Maryland*, program applications, and program overview brochures were distributed to all colleges and universities, public and private high schools, public special schools, early intervention sites, legislators, and requesting organizations. In addition, thousands of application packets were mailed to individuals requesting information.

Publications

Each year a number of publications are produced for distribution to high schools, colleges and universities, and students. Each publication is listed below with a brief description.

Student Guide to Higher Education and Financial Aid In Maryland provides students with information about more than 50 colleges and universities in Maryland, scholarships and grants to help students pay for college, programs that offer tuition assistance or scholarships, and private career schools. This publication is distributed to high school guidance counselors annually for distribution to high school seniors. The guide is also distributed to high school early intervention programs, public libraries, colleges and universities, private career schools, and out-of-state high schools that have a significant enrollment of Maryland residents.

Money for College Guide was designed for distribution to the colleges' and universities' financial aid offices and provides information about the 24 State financial aid programs that are offered by OSFA.

Cash For College Brochure is designed for high school freshmen, sophomores, and juniors to get them thinking about college. This has been distributed by direct mail to high school juniors.

A number of new publications were developed and distributed in Fall 2002. These include:

College 411 a quick guide to State financial aid programs. The brochure will be used at college fairs throughout the State and during financial aid workshops.

An Academic Year: Preparing for College developed for high school seniors as a month by month guide of activities for college preparation and a guide for choosing the best school for their future goals.

Getting Money answers questions about filling out the FAFSA and provides information on State need-based aid programs that can assist their families with higher education costs.

Web-based Initiatives

A number of web-based initiatives have been implemented over the last year to make MHEC's website more user friendly and to provide important information and resources to students, parents, and counselors about financial assistance.

MHEC has redesigned its website (www.mhec.state.md.us) to make it more user friendly to parents, students, and counselors by providing resources specifically designed for these groups of individuals. In the "For Students and Parents" section, you will find:

- ~~✍~~ applications in PDF format, conditions of award statements for renewal awards, information and descriptions of all State financial assistance programs available to Maryland residents;
- ~~✍~~ an “On-Line Scholarship Search” that will enable a student to determine which State financial assistance program he/she may be eligible for by answering a series of questions on enrollment status, major, and willingness to fulfill a service obligation among others;
- ~~✍~~ links to other financial aid sites and state colleges and universities; and,
- ~~✍~~ “Student Inquiry” that allows students to check the status of applications and awards on-line from initial application through verification; students can also print a copy of their award letter.

By clicking on “Student Financial Assistance”, in addition to the information above, students will have access to:

- ~~✍~~ “Paying for College” information; and
- ~~✍~~ “College Aid Calculator”, which is used to estimate Expected Family Contribution (EFC) for both public and private colleges, print an EFG report; and compute education loan payments for Stafford, PLUS, Perkins, and other loan programs.

Web-based initiatives that have been identified for implementation beginning in FY 2004 are billing rosters and award acceptance.

- ~~✍~~ On-Line Billing Roster will automate what is now a manual process for institutions and OSFA of verifying student eligibility for an award.
- ~~✍~~ On-Line Award Acceptance will enable a student to accept the award online and not require the mailing of the acceptance letter to the office

A secure website is being established to assist with the online billing roster process. Schools will access files through this website using proper identification. This website will also assist with the transfer of other files currently sent to the schools in paper form.

OSFA has begun planning for online applications, which will enable a student to fill out the application and submit it online. Students currently have the ability to download and print applications in PDF format and mail them into the office.

FY 2003 Outreach Initiatives and Beyond

Knowing that funds would be limited in FY 2004 for outreach activities, OSFA began discussions in the spring of 2003 to partner with the community colleges to provide financial aid nights at high schools throughout Maryland. OSFA has provided the Financial Aid Directors at the community colleges with a copy of its financial aid presentation and they have incorporated this presentation into the one that they would normally present at similar events.

This collaboration has been quite successful, allowing OSFA to honor speaking engagements which it may not have been able to staff. In addition, the more comprehensive presentation that a financial aid officer can provide offers the audience a more complete picture of the financial aid process.

In addition, we looked closely at our past outreach efforts to determine their effectiveness and whether or not they should be continued. We discussed our outreach material with an interagency outreach group and the Financial Assistance Advisory Council. Through these discussions we determined that the *Student Guide to Higher Education and Financial Aid In Maryland* is an important piece that informs students of all ages about MHEC's financial aid programs. The Academic Calendar produced recently has been very well received and greatly assists high school seniors in making their senior year productive in applying for and selecting a college. Both the interagency outreach group and the Financial Assistance Advisory Council felt that the least informative brochure is "Cash for College" used to inform high juniors that State money for college may be there next year when they are ready to apply. The unanimous feeling among the group members is that students need to be informed at a younger age of the importance of academic preparation in high school, and the availability of financial aid opportunities. It was suggested that we produce materials for students in the lower grades. Therefore, we have discontinued the "Cash for College" brochure that has been sent to high school juniors and have begun working with MHEC's Grants Office to focus our efforts on the production and distribution of academic preparation materials to assist 8th and 9th grade students. The Grants Office receives GEAR UP funding and oversees the College Preparation Intervention Program. Both, a student piece and a parent piece are in the development stage. We plan to distribute these materials in FY 2004.

OSFA will continue to seek partnering opportunities and explore innovative approaches to expand outreach efforts over the next year.

Significant Activities

The Task Force to Study College Readiness for Disadvantaged and Capable Students and the study of State financial aid programs conducted by The American Institutes for Research made a number of recommendations that impact State financial programs and college awareness and outreach activities. These recommendations include:

- ~~✍~~ Increase need-based financial aid to all eligible students, including undergraduate, graduate, professional, and parttime students;
- ~~✍~~ Collect data to effectively analyze needbased and other financial aid programs to guide allocations;
- ~~✍~~ Decentralize a portion of needbased aid programs and study further decentralization;
- ~~✍~~ Modify the Guaranteed Access Grant program to provide a “college readiness” outreach effort that allows students to prequalify for need-based financial aid in ninth and tenth grade; and
- ~~✍~~ Expand public information and outreach efforts on financial aid;
- ~~✍~~ Consolidate State programs as much as possible and reduce complexity; and,
- ~~✍~~ Modernize and streamline the administration of State aid programs.

Although funding constraints have precluded increased funding for needbased aid programs and other program initiatives, OSFA has been working over the last year to reduce program complexity, streamline programs, and create efficiencies. OSFA has implemented the following:

- ~~✍~~ **Automatic renewal of awards:** As long as a student maintains satisfactory academic progress, he or she is no longer required to sign renewal award letters. Before this year, the renewal process was often cumbersome for students, particularly those living on campus.
- ~~✍~~ **New procedure to verify family income for financial aid purposes for academic year 2003-2004:** OSFA has streamlined the verification process by working collaboratively with the institutions of higher education to verify family income for financial aid purposes. Before this change, OSFA and the institutions were duplicating verification efforts, as both were requesting income related documentation. Now OSFA relies on the schools to provide appropriate documentation to verify family income for selected students. This benefits the institutions and the students by providing for more accurate and stable awards, fewer late changes to awards (after the fall semester starts), and eliminating confusion since students will no longer need to send income related information to two different places.
- ~~✍~~ **New database to more efficiently track service obligations:** For some of Maryland’s scholarships, service or work obligations are a condition of eligibility. This year we created a new tracking database to more effectively monitor and track service obligations. This allows us to more easily determine a student’s award status.

 **Internal Audit:** Procedures have been put in place to audit all programs and billing roster processing to ensure that recipients are being awarded and that funds are being disbursed according to proper procedures.

 **Automated renewals for McAuliffe, Nursing, Conroy, and Child Care programs:** Implemented an automated process for the issuance and tracking of renewal awards and printing of award letters. In the past, staff renewed these awards manually.

Fiscal Year 2004 activities underway:

 **Decentralized Campus-based EAG program:** MHEC implemented the campus-based EAG program with the use of carry forward funds. This campusbased program assists needy students who due to extenuating circumstances may have missed application deadlines. These students could be firstgeneration college students, students from low income families, or students lacking family support structures.

 **Legislative Scholarship reports on CD Rom to legislators:** OSFA began working with the Office of Legislative Services Office of Information Systems over the summer to provide Student Application Information Sheets, Applicant Rosters and Recipient Rosters to legislators on CD-Rom. In prior years these lengthy reports were provided in paper form only at different times throughout the year. Providing them in an electronic format will enable office staff to import the file into a spreadsheet to manipulate the file as necessary to create reports, mail merges, and labels. With paper reports, staff must retype information to perform these functions.

 **New version of award roster:** For those schools that download award rosters weekly from the Electronic Data Transfer System (EDTS) a new award roster has been created that flags students whose awards have changed since the last roster was downloaded. The award roster lists all students who attend a particular school and have a State award. Prior to this change, financial aid offices would need to compare each student's information with their database to determine if a change occurred. Once the secure website is established, those schools currently receiving bimonthly paper award rosters will have access to the electronic version of the roster.

**Maryland Financial Assistance Program Funding and
Recipient Distribution by Postsecondary Institution**

This section of the Annual Report provides data on the distribution of funding and recipients by program for each postsecondary institution in Maryland. Subtotals are provided by higher education segment and program category. Tables are compiled in the following order:

Table II. Summary of Financial Aid Funds and Recipients by Higher Education Segment and Program Category: FY 2003

Table IIIa. State Financial Aid Funds FY 2003: Private Career Schools

Table IIIb. State Financial Aid Recipients FY 2003: Private Career Schools

Appendix I

Overview of State Financial Assistance Programs

Need-based Aid Programs

Educational Excellence Awards

The Educational Excellence Awards program is the State's largest need-based program. It has two components: the Educational Assistance Grant and the Guaranteed Access Grant.

The Educational Assistance Grant is targeted to low- to moderate-income families and is based on financial need. Financial need is based on the cost of the college the student attends (includes: tuition and fees, room and board, equipment, transportation, personal expenses), the Expected Family Contribution (based on income, family size, number of children attending college), other grant or scholarship awards, and the Federal Pell Grant (if any). Financial need is calculated as follows:

Cost of Attendance

- Expected Family Contribution
- Applicable Other Grants and Scholarships (if any)
- Federal Pell Grant (if any)
- = Financial Need

The amount of the Educational Assistance Grant (EAG) is 35% of the calculated financial need, with a \$400 minimum and \$2,700 maximum award. The statutory maximum for this grant is \$3,000, however, funding has not been provided to increase awards to this level. A portion of the Educational Assistance Grant is now campus-based. These funds are given to a higher education institution for distribution to assist needy students who due to extenuating circumstances may missed application deadlines. These students could be first-generation college students, students from low-income families, or students lacking support structures.

The Guaranteed Access Grant is for very low-income high school students and requires a 2.5 high school grade point average. The Guaranteed Access Grant covers 100% of the student need up to a maximum of \$11,600.

A College Readiness Outreach program was established in statute in 2002 to allow ninth or tenth grade students to prequalify on the basis of financial need for a Guaranteed Access Grant. However, funding was not been provided to implement the program in FY 2003.

Part- Time Grant

The Part-Time Grant provides up to \$1,000 for parttime, Pell eligible, degree-seeking, undergraduate students and students who are simultaneously enrolled in a secondary school and an institution of higher education. Funds are allocated to institutions of higher education for distribution based upon the number of undergraduate parttime students with financial need enrolled in degree-granting programs.

Graduate and Professional School Scholarship

The Graduate and Professional School Scholarship provides up to \$5,000 to full-time and parttime graduate and professional students in nursing, pharmacy, dentistry, law, medicine, veterinary science, and social work. This program became decentralized beginning in academic year 2002-2003. Funds are allocated to eligible institutions that then select recipients.

Legislative Programs

Senatorial Scholarships

Each member of the State Senate may award \$34,500 in scholarships each year. Combined with continuing awards, annual funding per legislative district totals \$138,000. Individual awards range from \$400 to \$2,000 per year at approved Maryland postsecondary institutions. Students must demonstrate financial need. Awards can be used out-of-state under certain circumstances.

Delegate Scholarships

Each member of the House of Delegates may award scholarships to students attending approved Maryland postsecondary institutions. The minimum award is \$200. The maximum award may not exceed the cost of tuition and fees at the highest University System of Maryland campus excluding UMUC and UMB (\$7,200 for academic year 2003-2004). Awards can be used out-of-state under certain circumstances.

Merit-based Programs

Distinguished Scholars Program

The Distinguished Scholars Program is designed to keep exceptionally talented students in Maryland. It provides 350 students an award of \$3,000 each year for up to four years. National Merit Scholarship and National Achievement Scholarship finalists are offered the scholarship if they attend a Maryland college. Maryland schools can nominate five juniors to audition in visual arts, instrumental music, vocal music, dance and drama. Individuals with a cumulative grade point average of at least a 3.7 may also apply. Awards are based on a ranking of applicants that combines grades and standardized test (SAT1, PSAT, or ACT) results.

Distinguished Scholar Teacher Award

This program provides an additional award of \$3,000 per year to encourage recipients of the Distinguished Scholar award to teach in a Maryland public school. Recipients are required to teach one year for each year a grant is received.

Career and Occupational Programs

Hope Scholarship Program

The Hope Scholarship Program is comprised of four programs: Maryland Science and Technology Scholarship, Maryland Teacher Scholarship, Maryland HOPE Scholarship, and HOPE for Nontraditional Students- Community College Transfer Scholarship. The Maryland Science and Technology Scholarship provides awards to qualified students who are pursuing a degree in designated fields in computer science, engineering, physical sciences, biological sciences, and mathematics. The Maryland Teacher Scholarship Program provides scholarships to students pursuing a career in teaching. The Hope Scholarship provides awards to students in the liberal and fine arts as well as selected other programs. The Community College Transfer Scholarship is open to students of all majors. All four programs require a “B” average in high school or college depending on status at the time of application. The Community College Transfer Scholarship and the Hope Scholarship have an income cap of \$95,000. Science and Technology and Hope Scholarship awards are \$3,000 for students studying at a four-year college or university, and \$1,000 for students studying at a two-year college. Recipients of the Maryland Teacher Scholarship receive \$5,000 to attend a four-year college and \$2,000 to attend a two-year college. Community College Transfer students receive \$3,000 at their 4-year institution. Recipients are required to work in Maryland one year for each year of assistance received.

Sharon Christa McAuliffe Memorial Teacher Education Award

The Sharon Christa McAuliffe Memorial Teacher Education Award provides assistance to students pursuing a career in public school teaching in an area of critical shortage. Students must have a 3.0 grade point average and have completed at least 60 credit hours. The maximum award may not exceed the amount of tuition, mandatory fees, and room and board for a student at the University System of Maryland campus with the highest cost of attendance, excluding UMUC and UMB (\$14,775 for academic year 2003-2004). Recipients are required to work in Maryland one year for each year of assistance received.

Child Care Provider

The Child Care Provider Program provides scholarships to students pursuing a career in child care services. Awards are provided for tuition up to \$2,000 per year and recipients are required to provide child care services in Maryland one year for each year a grant is received.

Developmental Disabilities, Mental Health, Child Welfare, and Juvenile Justice Workforce Tuition Assistance Program

This program provides funds to students pursuing an undergraduate or graduate degree in a human services field. Students will be required to work at an eligible employment site in a human services occupation for a specified number of hours dependent on the total amount of funds received. Award amounts may be up to \$3000 annually.

Nursing Scholarship

The Nursing Scholarship provides scholarships to students pursuing a career in nursing. Awards are provided for tuition and mandatory fees up to \$3,000 annually and recipients are required to serve in a nursing shortage area in Maryland one year for each year a grant is received. A living expenses grant of up to \$3,000 annually is available based on need. Nursing students enrolled in a program that includes mandatory summer academic sessions may be awarded the amount of tuition and fees not to exceed \$4,500 per calendar year.

Physical and Occupational Therapists and Assistants Scholarship Program

The Physical and Occupational Therapy Program provides scholarships to students pursuing licensure as a physical therapist, occupational therapist, physical therapy assistant, or occupational therapy assistant. Awards are provided for tuition and fees of up to \$2,000 annually and recipients are required to work in certain physical or occupational therapy fields for one year for each year a grant is received.

Firefighters, Ambulance and Rescue Squad Member Tuition Reimbursement Program

The Firefighters, Ambulance and Rescue Squad Member Tuition Reimbursement Program provides tuition reimbursement for firefighters, ambulance and rescue squad members who serve a Maryland community while taking college courses and continue to serve for another year after completing the courses. The courses must be in fire service technology or emergency medical technology. Awards may be up to \$4,550 for academic year 2003-2004.

Janet L. Hoffman Loan Assistance Repayment Program (LARP)

The Janet L. Hoffman Loan Assistance Repayment Program (LARP) provides awards to individuals working in specified fields to assist in the repayment of educational loan debt. LARP is comprised of three components. The LARP General program provides up to \$7,500 annually for lawyers, nurses, physical and occupational therapists, social workers, speech pathologists, and some teachers who work for Maryland State, local government or nonprofit agencies. The Loan Assistance Repayment Program Primary Care Services (LARPPCS) provides between \$25,000 and \$30,000 annually for primary care physicians and primary care medical residents who serve as fulltime primary care physicians in underserved areas in Maryland for two to four years. The Maryland DentCare Loan Assistance Repayment Program (MDC-LARP) provides \$23,000 annually to dentists who maintain at least 30% of their patient population as Maryland Medical Assistance Program recipients.

Unique Population Programs

Jack F. Tolbert Memorial Student Grant Program (Tolbert Grant)

The Tolbert Grant Program provides awards of up to \$300 to students attending a private career school. Statutory award maximum is \$400. Awards are made based on need and students must be enrolled in at least 18 clock hours per week.

Edward T. Conroy Memorial Scholarship Program

The Edward T. Conroy Memorial Scholarship Program provides up to the full cost of tuition and fees based on the University System of Maryland campus with the highest cost of attendance excluding UMUC and UMB (\$7,200 for 2003 -2004). To be eligible a student must be:

- ?? a son or daughter of a member of the US Armed Forces who died or was 100% disabled as a direct result of military service;
- ?? a veteran who suffers, as a direct result of military service, a disability of 25% or greater and has exhausted or is no longer eligible for federal veterans' educational benefits;
- ?? a POW/MIA of the Vietnam Conflict or his/her son or daughter;
- ?? a son, daughter, or surviving spouse (who has not remarried) of a State or local public safety officer or volunteer who died in the line of duty;
- ?? a State or local public safety officer or volunteer who was 100% disabled in the line of duty; or
- ?? a son, daughter, or surviving spouse of a victim of the September 11 terrorist attack.

Tuition Waiver for Foster Care Recipients

The Tuition Waiver for Foster Care Recipients provides tuition waivers for those residing in a foster care home at the time of their high school graduation or upon completion of their GED or those residing in a foster care home on their 14th birthday who were adopted out of foster care after their 14th birthday. The Department of Human Resources confirms student eligibility for the waiver. All other forms of grant or scholarship financial assistance must be applied before the waiver (Pell, State financial aid programs, etc). Students must attend a public institution to be eligible.
